SUMMARY

Pursuing a Software Engineering diploma at Aptech, I have consistently excelled in crafting compelling projects throughout each semester, with a primary focus on web development. Proficient in Angular, I've demonstrated a strong inclination towards creating dynamic and user-friendly web applications. My resume showcases hands-on experience and innovative solutions. Currently delving into Mobile Application Development, I am poised to leverage my skills as a versatile and forward-thinking web developer.

EDUCATION

Aptech Learning
Diploma of Software Engineering
2022 – 2025

Shah Abdul Latif University
bachelor of arts
